

Fight COVID-19 and other diseases with **PAPER TOWELS and SANITIZERS!**

Now you can put them in lots of *new places*

Outdoors – Secure, locked weather-resistant dispensers are ideal for giving the homeless access to towels, also can be easily set up at big outdoor events, in parks, outdoor rest rooms, etc.

On train and subway platforms
Riders can use towels to safely hold onto poles, railings, etc. or clean hands with sanitizer as they exit train cars.

In temporary medical facilities
Portable, free-standing models are ideal for providing towels to health care workers; easily moved to where needed

Outside of entrance doors, by gas pumps and shopping cart corrals, etc. – avoid direct contact with door knobs, pump handles, squeegees, etc.

And in many more non-traditional locations – almost anywhere!

Locking outdoor pedestal mount & locking can.

Indoor pedestal mounts for dispensers; can for towels and locking bands are available.

Locking outdoor and standard indoor mounting plates for walls, posts, etc.

Hasps can be either key-locking or standard style for padlocks

Pipe mounts available for use indoors or outdoors; at shopping cart corrals, etc.

For Touchless, mechanical or electronic dispensers

Options include:

(a) Dispensers (not always available); (b) Innovative mounting plates to secure dispenser to various types of flat surfaces; (c) free-standing, floor-anchored or pipe-mounted posts; (d) Lockable, but easily-removed lift-off models can be taken inside when store is closed; (e) Step-on waste can (with towel dispensers); (f) locking bands to prevent theft of dispensers or waste can; (g) weather protective covers.
